V10L Dual DVI

The Wyse® Thin OS™ powered Wyse V10L Dual-DVI thin computer is the most optimized solution for Citrix XenApp, Microsoft RDP (Terminal Services), and VMware VDI environments. With features usually found in high-end models but with the ease and functionality of Wyse Thin OS, you can expect:

- Fast and responsive performance over a LAN
- Simple to install and connect.
- ICA version 10.x compatibility.
- Built-in support for Wyse TCX virtualization technologies.
- Smart card support.
- Connects to two DVI displays.
- 3 USB ports.
- Automatic configuration and updating via DHCP options and FTP.
